

# Project work - Week 2

## Advanced Python - Spring 2023

### First deliverable; GitHub

*Deadline: May 4*

Become a member of the AdvPyS23 GitHub organization

- **All group members:**

Send your GitHub username to sigurd.ernes@unibe.ch

Create a repository for your project on the AdvPyS23 GitHub organization.

- See handout on using GitHub and Git "github-handout.pdf"
- Only one repository per group/project necessary
- Make sure all group members have access to your group repository

Code the first deliverable of your project

- Push the code of the first deliverable to your projects' GitHub repository

**Minimum requirements to have this week's exercise marked as passed:**

- Create a repository as described
- Write and push code to the repository
